# Answers at the end

## How long will it take us to get employees?

We usually fill positions within 14 days, but it always depends on specific requirements. In particular, how many employees are involved, or whether you have specific wishes.

## How much will it cost?

Again, it depends on several factors. Such as the number of employees (The more, the better the price.), or other specific requirements (e.g. language skills.) etc.

## What are the payment terms?

Monthly invoicing, which we can adapt to the pay date of your employees.
